Simon & Schuster Ltd. Paperback. Book Condition: new. BRAND NEW, Robot Uprisings, Someday soon, our technology is going to rise up and we humans are going to be sliced into bloody chunks by robots that in our hubris we decided to build with chainsaws for hands. That's a fact as cold and hard as metal. It is self-evident that our self-driving cars are going to drive us off bridges. Not long from now, our robo-vacuums will pretend to be broken and our love androids will refuse to put out until the house is cleaned .and we'll know that the inevitable robot uprising has finally arrived. Well, maybe. But even if we are not 100% confident that this horrific future is going to happen, it's fair to say that we won't be surprised when the robots come for us. Because for nearly a century audiences have been entertained by the notion of a robot uprising. In this collection, seventeen of the biggest names in sci-fi have explored their own visions of the classic robot uprising tale. The robots in these pages aren't safe, by any means. They are crouched in abandoned houses, eyes ablaze and chainsaws dripping with oil. But they are going to do more than slice us up. They are going to push us to consider our world of technology from new perspectives, on entirely new scales of time and space.
