This item is printed on demand - Print on Demand Neuware - Scientific Study from the year 2011 in the subject Cultural Studies - Miscellaneous, University of Dodoma (Institute of Rural Development Planning), course: Social Sciences and Botany, language: English, abstract: A survey on the conflict between cattle keepers and surrounding communities was conducted at Maili Mbili-Chinangali street in Dodoma Municipality between December, 2010 and January 2011 to find out conflicts resulted by cattle keepers, as well as to assess factors for incompatible land use in the study area. 100m X 1000m [10hectares] transect walk was employed from Maili Mbili seasonal stream bridge to the end of Chinangali street. Questionnaire forms were used to collect data including three cattle keepers and three non-cattle keepers. Also, direct observation was applied whereby any revealed cattle were identified, counted and recorded. Digital camera was used to take photographs. The found cattle huts were recorded and photographed. Computer packages including micro soft excel, micro-soft word programs and calculator were used during data compilation and analysis. A total of 55 cows and 31 goats were identified. The total available hectares were 10, an indication...
