

Elective Mutism:

By N. H. Hadley

Springer Dez 1993, 1993. Buch. Book Condition: Neu. 235x155x19 mm. This item is printed on demand - Print on Demand Titel. - The book has been written for applied researchers and practitioners in the disciplines of school psychology, speech-language pathology, special education, expressive therapy, family therapy, psychiatry, clinical psychology, pediatric medicine, and social work. Elective mutism is discussed within the important context of silence and gender differences in communication. The elective mutism literature focuses on the characteristics of specific patients but little has been done in systematic theory building. Hadley addresses this issue and argues for a multidimensional theory of elective mutism. The book has five major purposes: (1) to provide a background for the problem of elective mutism by identifying the characteristics of healthy users of silence; (2) to provide a compendium of practical approaches for assessing and treating elective mutism; (3) to suggest etiological models of elective mutism based on the evaluation and synthesis of case study data; (4) to identify recurring themes and major issues in the published literature; and (5) to identify research questions related to the assessment and treatment of elective mutism. A unique feature of the book is the inclusion of an assessment instrument...
